EDUCATION

University of California, Berkeley | Berkeley, California

May 2028

B.A. in Applied Mathematics, Minors in Computer Science and Philosophy | GPA: 4.0 / 4.0

Relevant Courses: Data Structures (A+), Data Science (A+), Computer Architecture (A+), Honors Linear Algebra (A+), Discrete Mathematics (A+), Multivariable Calculus (A+), Mechanics and Relativity (A)

TECHNICAL SKILLS

Languages: Python, C, Java, LaTeX

Technologies: Git, PyTorch, NumPy, Matplotlib

Tools: Google Colab, Jupyter, Vim, VS Code, Unix CLI

EXPERIENCE

UC Berkeley Ajoy Lab | Berkeley, California

June 2025 - Present

Undergraduate Researcher

- Worked with PhD student Leo Jun Il Moon
- Applied interpretable machine learning to analyze chemical sensing data

UC Berkeley Math Directed Reading Program | Berkeley, California

January 2025 - May 2025

Mentee

- Mentored by PhD student Zachary James McNulty
- Studied graduate-level text Foundations of Data Science (Blum, Hopcroft, Kannan)
- Explored rigorous mathematical underpinnings of data science

San Mateo High School | San Mateo, California

August 2023 - May 2024

Precalculus Teaching Assistant

- Designed and led supplemental lessons to reinforce key concepts
- Provided one-on-one tutoring to struggling students, improving comprehension and performance on assessments
- Graded assignments and quizzes, offering targeted feedback to reinforce conceptual understanding

PROJECTS

NBA Shot Prediction | Python, NumPy, PyTorch

December 2024

- Developed a predictive model for NBA shot success with PyTorch
- Involved preprocessing a dataset with 128k shots, encoding variables, and applying scaling
- Employed logistic regression as a baseline, with models trained on individual variables to assess feature importance
- Outperformed existing neural network models by ~15%

HONORS

UC Berkeley Dean's List, Honors to Date

December 2024 - Present

- On track to graduate with distinction, cumulative GPA in top 10% of undergraduates

Aime Qualifier

March 2024

- Top ~5% in AMC 12 (American Mathematics Competition)
